Managing Water for Sustainable Agriculture

Joint Editors: Kristoph-Dietrich Kinzli and Hector M. Malano

The journal of the
International Commission
on Irrigation and Drainage

Volume 64, Number 2, April 2015 ISSN: 1531-0353

wileyonlinelibrary.com/journal/ird

CONTENTS

Research Articles

An Assessment for Hydraulically Efficient Design of Uniformly Sloping Submain Lines: G. Yildirim 157

Water Distribution of Traditional Karez Irrigation Systems in Afghanistan: M. J. Khan, G. Pacha, M. S. Khattak and R. Oad 169

Irrigation in Southern Africa: Success or Failure?: J. Mutiro and J. Lautze 180

Case Studies

Irrigation Management Reform in Northern China: Case Studies in Shanxi Province: H. Li and S. R. Perret ... 193

Performance Assessment for Irrigation Water Management: Case Study of the Great Chao Phraya Irrigation Scheme: W. Bumbudsanpharoke and S. Prajamwong 205

Performance Of Small-Scale Water Management Interventions on Crop Yield, Water use and Productivity in Three Agro-Ecologies of Malawi: D. M. Kadyampakeni, S. Kazombo-Phiri, B. Mati and I. R. Fandika 215

Research Articles

Assessing the Design of a Model-Based Irrigation Advisory Bulletin: The Importance of End-User Participation: S. Tapsuwan, J. Hunink, F. Alcon, A. N. Mertens-Palomares and A. Baille 228

Environmental Benefits of Improved Water and Nitrogen Management in Irrigated Sugar Cane: A Combined Crop Modelling and Life Cycle Assessment Approach: M. van der Laan, A. Jumman and S. R. Perret 241

The Values of Crop Coefficients and Bowen Ratio of Field Crops in Areas with Insufficient Precipitation in Central Europe: P. Zábanský, J. Pivec, V. Brant, M. Kroulík and M. Škeříková 253

Assessing Hydrus-2D to Simulate Soil Water Content (SWC) and Salt Accumulation under an SDI System: Application to a Potato Crop in a Semi-Arid Area of Central Tunisia: A. Mguidiche, G. Provenzano, B. Douh, S. Khila, G. Rallo and A. Boujelben 263

Effects of Superabsorbent Polymers on Infiltration and Evaporation of Soil Moisture under Point Source Drip Irrigation: L. Yang, Y. Han, P. Yang, C. Wang, S. Yang, S. Kuang, H. Yuan and C. Xiao 275

Simulating Groundwater Dynamics using Feflow-3D Groundwater Model under Complex Irrigation and Drainage Network of Dryland Ecosystems of Central Asia: U. K. Awan, B. Tischbein and C. Martius 283

Biofuels and Irrigation: A. C. Tyagi 297
